

# ELLIS ISLAND

Through America's Gateway

The centerpiece of the Ellis Island restoration project was the construction of the Ellis Island Immigration Museum. Covering three floors and 200,000 square feet, the museum tells the poignant story of the immigrants who entered America through the golden door of Ellis Island.

Ellis Island was incorporated as part of the Statue of Liberty National Monument on May 11, 1965. Between 1892 and 1954, approximately 12 million steerage and third class steamship passengers who entered the United States through the port of New York were legally and medically inspected at Ellis Island. Reopened on September 10, 1990 after a massive restoration, the Main Building on Ellis Island is now a museum dedicated to the history of immigration and the important role this island claimed during the mass migration of humanity in the late 19th and early 20th centuries.

## Package Includes:
